Forecast for Monday 12 Sep 2022

Weather: Cloudy with a few clear spells developing across the Brecon Beacons during the early hours of Monday, leading to a bright start. Cloud will gradually increase from the north during the morning with an outside chance of an occasional shower during the afternoon.

Chance of cloud-free hill tops above 600m: 70% reducing to 60% mid-afternoon.

Low cloud and visibility: After the clearance of any pockets of early morning mist, visibilities will generally be good to very good. Cloud mostly above the level of the summits throughout the day, however shreds of cloud occasional dropping towards 500-600 meters. Visibilities generally good outside of any rain and drizzle when they will drop to poor.

Meteorologist's View

Although it is likely to feel pleasant with some sunny spells during the morning, temperatures will remain on the cool side near to the hill tops, so some warm clothing is still advised. Water proofs are also recommended given the chance of an isolated shower.

Forecast for Tuesday 13 Sep 2022

Weather: A band of cloud will move steadily southwards across the Brecon Beacons during the early hours of Tuesday morning, leaving a rather bright start to the day. Skies remaining mostly clear into the afternoon but it may be hazy at times with some high level cloud around.

Maximum wind: Northeasterly, 10-15 mph, occasionally gusting to 30-35 mph near summits during the morning.

Chance of cloud-free hill tops above 600m: 70% rising to 80% from mid-morning.

Low cloud and visibility: A few shreds of cloud with bases from 500-600 meters possible at first, limiting visibilities on some summits for a time. Cloud bases will mostly lie well above summits for most of the day. Visibilities generally good to very good.

Temperature: **Valleys:** Plus 13 Celsius, rising to Plus 21 Celsius.
At 600m: Plus 8 Celsius, rising to Plus 18 Celsius.
Freezing level: Above the summits throughout.
